EDUCATION

BMS Institute of Technology and Management

Bachelor of Engineering in Information Science and Engineering; CGPA: 7.89

Bengaluru

Dec 2021 – May 2025

EXPERIENCE

Associate Analyst – Data & AI Engineering

Apr 2026 – Jun 2026

GlobalLogic

- Conducted structured quality-control audits and documentation, flagging tracking errors, FOV issues, and sensor artifacts to ensure dataset integrity for downstream systems.
- Built Python data pipelines for ingesting/processing large-scale data, applying process analysis and semantic labelling standards across a multi-stage validation workflow.

System Engineer Trainee

Dec 2025 – Mar 2026

Infosys

- Developed Java-based backend services and RESTful APIs integrating SQL databases; wrote JUnit unit/integration tests and supported defect tracking to validate business logic.
- Participated in full Agile SDLC ceremonies – requirement clarification, sprint planning, retrospectives, and code reviews – collaborating with cross-functional teams.

INTERNSHIP

Software Engineering Intern

Mar 2025 – Jun 2025

RocketGrowth Technologies

- Built a real-time data pipeline (YOLOv8, OpenCV) for automated detection/tracking of workers and inventory, testing and validating outputs against ground-truth logs.
- Automated data-logging workflows with structured event capture to PostgreSQL; followed Agile (Scrum) using JIRA/Confluence, coordinating with cross-functional stakeholders on requirements and support documentation.

PROJECTS

AI Ops Assistant – Multi-Agent System | Python, FastAPI, LangChain

- Architected a multi-agent system (Planner, Executor, Verifier) with automated validation, exposed via a FastAPI REST endpoint.

AI-Powered CCTV Monitoring System | Python, OpenCV, YOLOv8, PostgreSQL

- Developed real-time detection/tracking pipeline; designed PostgreSQL schema for zone-level traceability.

TECHNICAL SKILLS

Programming Languages: Python (primary), Java, JavaScript, SQL

Data & Automation: Automated data pipelines, exploratory data analysis, Pandas, NumPy, statistics, data visualization (Matplotlib)

ML / AI: TensorFlow, Scikit-learn, OpenCV, YOLOv8, LangChain, Groq API, Llama 3.3, OpenAI API

Backend & Databases: FastAPI, Flask, Spring Boot, RESTful APIs, PostgreSQL, MySQL, MongoDB

DevOps & Cloud: Docker, Kubernetes, CI/CD, AWS, Git

Core CS: Data Structures, OOP, Computer Networks, Microservices, Agile, SDLC

CERTIFICATIONS

Oracle Certified Professional – Oracle Cloud Infrastructure: Generative AI (2024)

Spark and Python for Big Data with PySpark – Udemy, Jul 2024

Java Certified Foundations Associate: Development Basics – Infosys Springboard

Python Data Structures and Algorithms – Infosys Springboard

SAP AI Core / Generative AI Hub (BTP) – self-study via openSAP, in progress
